Library Contributing to International Practice Guidelines on Resuscitation

In May Sandra Iverson and Carolyn Ziegler attended the International Liaison Committee on Resuscitation (ILCOR) meeting in Banff, AB.

The meeting brought ILCOR team members together from across the globe to discuss progress on an evidence-based review of resuscitation science.

The library is pleased to have landed the prestigious ILCOR information science contract, working with leading resuscitation experts to conduct over 200 systematic searches of the literature over a one year period.

Above: Carolyn Ziegler, Bill Montgomery, and Sandy Iverson

Staff Feature: Carolyn Ziegler

Areas of responsibility:

Family Practice and Community Medicine, Emergency Medicine, Mental Health, Geriatric Medicine, Rescu.

What do you do for fun?

Anything that gets me outdoors, especially bicycling, hiking, and kayaking.

What do you like best about your job?

The research at SMH that I get to support is endlessly fascinating and I am deeply inspired by the dedicated staff who work here.
