

## Featured Database: Natural Medicines

At St. Michael's Hospital, staff have access to Natural Medicines, "the most authoritative resource available on dietary supplements, natural medicines, and complementary alternative and integrative therapies"<sup>1</sup>

Natural Medicines has many interesting tools including the **Interaction Checker**, the **Effectiveness Checker**, and the **Adverse Effects Checker**.

It also includes patient education handouts ready to print out in English, Spanish, and French.

Read more about this resource and how you can access it here: <http://bit.ly/2knwAy9>

## Custom Resource Guides – a One-Stop Shop!

Resource guides are custom web portals on a topic that contain various information sources, such as ebooks, journals, recommended databases, and web resources - all in one convenient place. The portals are curated by information specialists in conjunction with subject matter experts at the hospital. Some of our resource guides also supplement the workshops that we offer, like our Endnote guide. We currently have over 30 resource guides which can be found on our "[Library Search](#)" homepage.

If you have an idea for a resource guide, we would love to hear from you! Contact us using the information below.
