## Introducing Naz Torabi, Information Specialist

**Tell us a little about yourself:** I joined the Health Sciences Library team as an Information Specialist in December, and I come from McGill University Library where I worked as a liaison librarian for various clinical programs. Some of my accomplishments included leading the development and implementation of information literacy integration into the undergraduate medical education program curriculum, and managing the Canada Health Libraries Association website migration project. I also carried out various knowledge synthesis projects, bibliometric analyses, and collaborated with various research teams. Most recently, I worked with St. Joseph's Health Centre as the Acting Library Manager. I earned my MLIS degree from the University of British Columbia.

**What do you do for fun?** I enjoy walking. Since I have recently moved to Toronto, I love to walk around the city and explore different areas. I love the diversity of neighborhoods in Toronto.

### What are your 2018 New Year's resolutions?

- Spend less time on the Internet
- Take one photo a day for a month
- Try at least one new recipe each month
- Learn to speak Arabic

### NEW featured eBook

*The Clinical Practice of  
Neurological & Neurosurgical  
Nursing*, J. Hickey et al., 2014
