April is Cancer Awareness Month—Daffodil Campaign

The Health Sciences Library has an extensive collection of resources on cancer related topics. Check out our [Oncology Resource Guide](https://guides.hsict.library.utoronto.ca/haematology_oncology) (https://guides.hsict.library.utoronto.ca/haematology_oncology). One of the most popular titles in our Popular Health & Science collection is Mukharajee's Pulitzer prize winning "The Emperor of all Maladies" which presents a "biography" of cancer—from its first documented appearances thousands of years ago through the epic battles in the twentieth century to cure, control and conquer it to a radical new understanding of its essence.

Our Library Leads Canada Health Libraries

Sandy Iverson, Manager Health Sciences Library, instigated the first ever year-long program to foster leadership in Canadian health sciences libraries through The Leadership Institute. She and a team of established library leaders will offer workshops and personal mentorship to a select group 12 rising knowledge workers. The Institute is sponsored by the Canadian Health Libraries Association (CHLA/ABSC), where she currently serves as vice president/ president-elect.
