

Library Link

Welcome Residents!

We're so happy to have you with St. Michael's! To help you succeed, the Health Sciences Library has curated a guide of resources specifically for you: bit.ly/smhresidentlibguide. This online guide includes:

- Point of care tools, calculators, drug information
- Patient education resources, cases, study tools
- EBooks, articles, and databases

The Library also offers workshops, literature search services, and a computer lab.

Visit the library in-person (LKS 3rd floor) or online at bit.ly/smhlibrary for more information and services!

Wellness for Health Professionals

Looking after others can take quite the toll on those who are dedicated to caring for our community. The Health Sciences Library realizes this and would like to highlight our guide that can help support your own personal wellness.

Health and Wellness for Health Professionals: <https://bit.ly/2WHJhla>

Within this guide you'll find,

- Guided Audio meditation
- Recommended books and articles on resilience, stress reduction, and reflective writing
- Recommended yoga and stress reduction videos

July Workshops

- July 3rd: Preparing for a Poster Presentation
- July 9th: Endnote
- July 25th: Master Microsoft Word

To Register visit: <https://bit.ly/2MPwiiQ>

Check out our new Graphic Medicine collection!

Our new Graphic Medicine collection highlights several illustrated works on health science topics. Come visit us in the library to have a look at these fantastic works.

Featured Article!

Melanoma and Medical Education: Knowledge and Sun Safety Practices Amongst Medical Students.
